Characteristics of Effective Learning

Playing and exploring: - Children investigate and experience things, and 'have a go'. Children who actively participate in their own play develop a larger store of information and experiences to draw on which positively supports their learning

Active learning: - Children concentrate and keep on trying if they encounter difficulties. They are proud of their own achievements. For children to develop into self-regulating, lifelong learners they are required to take ownership, accept challenges and learn persistence.

Creating and thinking critically: - Children develop their own ideas and make links between these ideas. They think flexibly and rationally, drawing on previous experiences which help them to solve problems and reach conclusions.

Unique Child: Every child is unique and has the potential to be resilient, capable, confident and self-assured.

Positive Relationships: Children flourish with warm, strong & positive partnerships between all staff and parents/carers. This promotes independence across the EYFS curriculum. EYFS is where the partnerships between home and school begin.

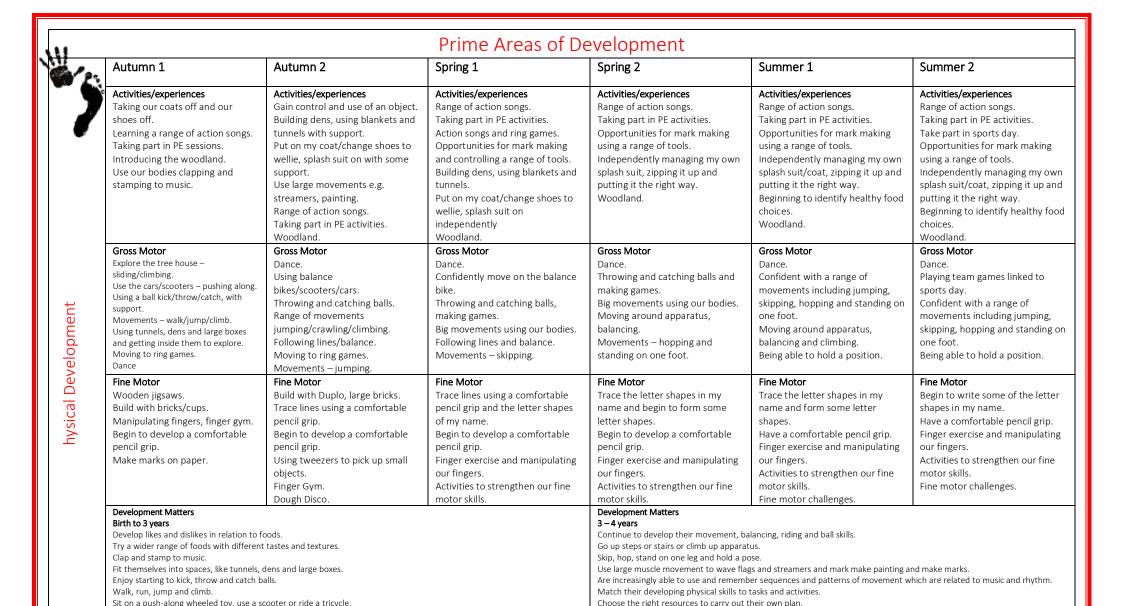

Enabling environments: Children learn and develop well in safe and secure environments where routines are established and where adults respond to their individual needs and interests and help them to build upon their learning over time.

Learning and Development: Children develop and learn at different rates. We must be aware of children who need greater support than others, celebrating individual achievements wherever they occur.

We nurture in our children the courage to just have a try and if at first you fail, have another go!

Prime Areas of Development

Collaborate with others to manage large items, such as moving a long plank.

Uses a comfortable grip with good control when holding pens and pencils.

Use one-handed tools and equipment, make snips in paper.

Being increasingly independent to meet their own care needs. Make healthy choices about food, drink and exercise.

Start to eat independently.

Show preference for dominant hand.

Develop manipulation and control.

Show desire to be independent.

Explore different materials and tools.

Use large and small motor skills to do things independently.

Learn to use the toilet with help and then independently.
